The many friends of Dr. Pearce will be pleased to learn of his improving condition.

We beg to call the attention of our readers this morning to the advertisement of Mrs. F. T. McCormick, proprietress of McCormick's Millinery Parlors, on the west side of the court house square, this city, who has opened in connection with her millinery parlors a school of Millinery Art Instruction, where a full and complete course of instruction in the art of up-to-date millinery designing will be taught to a few select pupils. Mrs. McCormick needs no recommendation, as she is well and favorably known as a high-grade milliner and designer. She is a graduate of millinery art designing, and has been connected with several large millinery establishments in Baltimore and elsewhere. She is noted as authority in millinery in all its branches, and is fully equipped to give full course of instruction running from two to three months. Tuition will be reasonable.

Miss Goode Will Run.

At the solicitation of her numerous friends, we desire to state that Miss Addie Goode has consented to become a candidate in the contest for the Landmark diamond ring to be given away in the Co-Operative Contest. She will at once start to work and will make a personal canvass for your favors. Respectfully,

ADMIRERS.

Tennis Tournament.

In the tennis tournament on the University courts yesterday afternoon Langston defeated Riley 6-4, 6-1; Chapin defeated Kay 6-0, 6-2; Rader defeated Drawdy 6-3, 6-2.

Only four are now left in the contest—Wilson, R. N., Langston, Chapin and Rader—and they will compete for the final honors this afternoon.

Sale Was Big Success.

The "Old Hoss" sale of the Southern Express Company, conducted on Thursday in the vacant Wilson building on East Liberty street, was a success in every way to the company and afforded much amusement for the large number of spectators present during the day. In all over a solid carload of unclaimed packages were sold to the highest bidders and not a few of them were "stuck" in the transaction, but all took their "medicine" good-naturedly.

STATE RESTS IN THE BEXLEY-OSTEEN TRIAL

**Great Volume of Evidence Was Introduced Friday.
Defense Begins Its Testimony.**

Court convened at 8:40 Friday morning, pursuant to adjournment of Thursday, Judge Wills presiding, and other officials present.

The defendants, Wm. A. Bexley and Truby Osteen, who are being tried for the murder of W. H. Moreland at High Springs on the night of July 29, 1908, occupied their usual position behind their counsel. They were surrounded by their relatives and friends, as on the day before. The young men were attired in black, wearing lavender ties and Bexley's coat was adorned with a rose boutonniere.

Livingston's Testimony.

Geo. W. Livingston, deputy sheriff, was first witness for State. Was in Newberry on night of July 29, but was summoned to High Springs that night, arriving there in early morning. Knew where E. B. Godwin lived in High Springs. Went to scene of homicide and saw tracks, which he described. Followed the tracks. They continued together for about 100 yards in about a northerly direction, then separated. Described the direction taken after separating, as he followed them. Were running tracks, as he ascertained by the deep impression in ground and the distance apart. Witness stated that one of the parties making the tracks led him to the close vicinity of Judge Bexley's gate, where they stopped. Track was made by a No. 5 or No. 6 man's shoe. Party making tracks in southerly direction wore about a No. 3 or No. 4 shoe. These tracks he followed to within about 100 yards of Truby Osteen's home. Witness saw Osteen on the morning of July 29 coming out of his (Osteen's) father's gate. Had no conversation with him, but said witness stated in referring to the homicide, that he did not know anything about it.

Upon cross-examination witness testified that there had been a rain on the previous night, making the earth firm.

By defense: "How far was it from the scene of the homicide where you discovered the tracks?"

"I do not know. I did not measure."

When asked if he did not testify before Judge Wills in habeas corpus proceedings to the effect that it was about 50 feet from where he had been told the body of Moreland was picked up, the witness replied that he did not remember, but probably did. This point was where he struck the trail.

In places between spot where homicide occurred to Bexley's home, there were occasional tracks, but no other running tracks. It was between 100 or 100 yards, he thought, from

scene of homicide to Bexley's home, by the route followed.

That Map Again.

At this juncture the map which was introduced in Thursday's session was again presented by waiver of rules. J. W. Patton, a civil engineer and surveyor, was placed on the stand, and identified the map, stating that he made it, and that it was absolutely correct as regards scale and location.

By Attorney Stripling: "You have indicated here some point with a red mark. What does that mark represent?"

"It represents the point where I was told Moreland's body was found," replied the witness.

"Who told you that Moreland's body was found on this spot?"

"Mr. Griner."

After describing various points by number and their meaning, the State objected to the filing of the map in evidence at this time, which objection was sustained. The defense then withdrew the witness with the statement that the map would be introduced in evidence at the proper time.

Livingston Recalled.

Witness Livingston resumed the stand and identified certain geographical locations on the map, permission having been given to examine him along these lines, the witness indicating as near as possible the point nearest the scene of the homicide where the tracks in question were first discovered, and the route that he followed to Bexley's home and Osteen's home.

After having lost the track near Bexley's gate, he caused Bexley's arrest.

When asked by defense the length of a No. 5 shoe, or No. 6 shoe, witness could not say.

"Did you not testify in the preliminary hearing before Judge Mason that you, with Messrs. Grimes and Griner, first discovered these tracks in the first heavy sand, between 100 or 150 feet north of where Moreland's body was found?"

The witness could not remember. By request of the prosecution, witness, by aid of the map, indicated as near as possible, the point where the tracks were first discovered, following his course and indicating the gate to which the tracks lead at Bexley's home.

T. C. Griner

held position of night marshal at High Springs on July 29, 1908. Heard shot between 10 and 11 o'clock near home of Mr. Glass. Went immediately to scene, and met Mr. Godwin; heard struggling, and he and Godwin found Moreland laying on sidewalk between home of Mr. Glass and Mr. Futch, nearer the home of Glass. Moreland

was not dead, but did not speak. He dispatched someone for a doctor, and Dr. Hodges came. Moreland lived about fifteen minutes.

Witness stated that by suggestion he arrested Bexley and Osteen that night, as M. P. Summers told him of the engagement they had made to go riding with Moreland and Miss Glass, and that they could probably give some light on the subject. After the arrest witness sent for Marshal Bryant, who ordered them released.

Witness and Deputy Livingston, together with Marshal Bryant, investigated the tracks the following morning, which resulted in the re-arrest of Bexley.

On cross-examination witness stated that when he arrested Bexley and Osteen, about twenty minutes after the homicide, he found each at his respective home, and in bed. Neither of the defendants appeared to be unduly excited.

Witness stated on re-direct examination that when he arrested Bexley the second time, on the morning of July 30, he took him (Bexley) to home of witness, as witness had been up all night, and went to breakfast immediately following the arrest. Bexley wanted to know why he was again arrested, when witness told him it was by the tracks. He and Bexley were walking along one of the trails, and witness selected one of the tracks. Bexley voluntarily placed his foot into the depression, remarking, the witness said, "It fits." When asked if he would swear that this was one of the chain of tracks followed, witness replied that he would not, but that the track was identical with the other of the chain, and he believed it was one of them.

Cross-examination: The tracks which were followed to Bexley's home did not enter the gate.

The map was also used by this witness in indicating points and distances.

A number of people were congregated about the body, coming and going in all directions until the body was removed, about a half hour later. The night was dark.

"Could not have Bexley reached his home by going through this path marked No. 15 (referring to map) and onto the back piazza?" asked Attorney Stripling of the witness.

Objection was promptly made by the State, but was overruled.

The witness replied in the affirmative.

J. L. Grimes

resided in High Springs on July 29, 1908. Heard a shot fired on that date between 10 and 10:30 p. m. Was in bed, but arose. Knew spot where Moreland's body was found, about 400 feet from home of witness. Went to scene of homicide. Witness discovered tracks a short distance from point where body was found. Tracks were pointing north. There were two sets of tracks, made by presumably a No. 5 or 6 shoe. Story on direct examination corroborated the testimony of Livingston and Griner.

In the cross-examination the map was again employed, the explanations therefrom differing very little from those of former witnesses to whom the plat had been exhibited, with a few minor exceptions.

Witness stated that there were no peculiarities about these tracks from which he could distinguish it from track of any other ordinary shoe of the same size.

H. McL. Grady

resides at High Springs engaged in mercantile business. Was in High Springs on July 29, 1908. Sold Osteen two pairs shoes, one pair tans, one pair canvas oxfords, but prior to July 29, 1908.

"Was either pair a lady's pattern?" Objection by defense overruled.

Witness replied that one pair was of lady's Walk-Over pattern, with small heel and tip, high heel, thin sole and tightly made. Might be termed a lady's shoe. Forgotten the number, but was either 6 or 6 1/2. Has sold same style and pattern of shoe to

REAPPORTIONMENT IS KILLED BY THE SENATE

Lengthy Debate Over Measure---House Passes Mr Stokes' Loan Shark Bill.

TALLAHASSEE, May 7.—The Senate, after a debate lasting through the entire morning session yesterday, killed the Harris reapportionment bill by a vote of 18 to 10 on a motion to indefinitely postpone the measure.

Senator Harris delivered one of the ablest of speeches in behalf of the measure and quoted from many court decisions in other States to prove that under the intent of the constitution it is not only the privilege, but the duty of this Legislature to reapportion the State.

Senators Humphries and Beard also spoke in its behalf.

Senators Miller, Cone and McLeod spoke against the measure.

Little else was done by the Senate, as the entire session was given up to the discussion of this matter.

The most important bill introduced was the one by Senator Davis, by request, which provides for a State system of trunk highways planned on the order of resolutions lately adopted by several boards of trade.

Senator McCreary introduced Senate Bill No. 356, organizing City of Newberry, also Senate Bill No. 368, relating to division of counties into road districts. Mr. Duke also introduced a similar bill in the House.

IN THE HOUSE.

A heated discussion was precipitated in the House yesterday afternoon

between customers since spring, 1908. Could not remember how many pairs he had sold up to July 29, 1908.

Cross: Witness stated that no other shoe of the Walk-Over make (the make referred to) was sold in High Springs, as he is the exclusive agent. It is possible, however, that there may be other patterns and other makes.

M. A. Mixon

resides in Lakeland. Brother of Tom E. Mixon of High Springs, who was a witness in habeas corpus proceedings in the case of defendants.

Witness stated, when asked about the whereabouts of Tom Mixon, that Tom Mixon was dead. Died in February of the present year. Was with his brother when he died.

Cross-examination: Witness was asked how he was aware that Tom Mixon was a witness in this case. Objection by State overruled, when witness replied that his brother was working in Polk county, and that Sheriff of said county came after him

when the committee appointed to investigate the report of the Internal Improvement Fund Investigating Commission brought in two reports.

Chairman MacWilliams of the committee submitted a minority report recommending that resolutions be adopted censuring the trustees for their action in paying out such large attorney fees.

Representative Hilburn and the other members of the committee submitted a majority report alleging that under that report there is no corruption charged or anything else upon which action could be based and recommending that nothing further be done for that reason.

A heated discussion followed which was only broken by adjournment.

The House killed the constitutional amendment offered by Smith of Jackson, which is very much like the Mississippi grandfather law, and prescribes similar conditions for eligibility to vote. There was a very warm debate over the measure, Mr. Roberson of Suwannee taking an especially strong stand against it.

In the morning the Stokes loan shark bill was passed. Mr. Stokes delivered a very eloquent address in behalf of the measure.

Mr. Chase of Duval objected to the bill. He said that he did not want to go on record as favoring sharks, but explained that the pawn shops are needed by the poor in Jacksonville.

on a writ of attachment, and that he (the witness) went on his appearance bond. Witness was shown the bond, and recognized his signature, also the signature of deceased.

P. G. Ramsey.

Sheriff P. G. Ramsey was called and testified that he was present at the hearing of the habeas corpus proceedings in the case of Bexley and Osteen, and that Tom E. Mixon was a witness at said hearing, and afterward gave appearance bond, said bond being signed in his presence by M. A. Mixon and Tom E. Mixon. Witness shown the bond and identified same.

Court here adjourned till 1:40 p. m.

The Afternoon Session.

Court convened at 1:40 p. m. Miss Lois Hale, court stenographer, was the first witness. Miss Hale stated that in her official capacity she took down the evidence in the habeas corpus proceedings of Bexley and

Boyle Found Guilty of Kidnapping Billy Whitla

MERCER, Pa., May 7.—James Boyle, charged with kidnapping "Billy" Whitla, was convicted yesterday after a trial lasting but a few hours. No defense was made and the jury was out but a few minutes.

Mrs. Boyle, indicted under the name of Mary Doe with half a dozen aliases, was immediately placed upon the stand with aiding and abetting

the kidnapping. Hardly had the jury been sworn in the woman's case when the lawyers became engaged in a legal argument regarding the admission of certain testimony and the case adjourned until morning.

Mrs. Boyle took a prominent part in the selection of her jury yesterday, prompting her attorneys in numerous cases and rendering a brief address for several times.

News of State and Nation Prepared for Busy Readers

JACKSONVILLE, Fla., May 7.—Orin Is. Smith, white, who had been sentenced to hang here today for the murder of his sister one year ago, was granted a reprieve until June 11 by Governor Gilchrist late yesterday afternoon.

JACKSONVILLE, Fla., May 7.—The grand jury failed to return true bills against Jesse C. Brown, who killed Earl P. Adams, the actor, about two weeks ago, and B. H. Humphreys, who killed Tom McManus, a farm hand, whom he claims, had come to reason him (Humphreys), and his wife, and they have been liberated. The unwritten law is supposed to have prevailed.

SAVANNAH, Ga., May 7.—Judge Sheppard yesterday overruled the motion of the defense for a dismissal of the case against the "turpentine trust" without further proceedings, and stated that he would let the case go to the jury. The defense began at once the submission of its testimony.

NEW YORK, May 7.—Judge McAvoy yesterday ordered the arrest of Mrs. Evelyn Nesbit Thaw for her failure to appear in supplementary proceedings following the securing of a judgment against her. The order directs that she be kept in close confinement until the settlement of her account.

STATE RESTS IN THE BEXLEY-OSTEEN TRIAL

(Continued from Page One.)

Osteen, among the witnesses being Tom C. Mixon, and that transcript as testified to by Tom Mixon was correct.

Cross-examination: Defense asked witness if she did not retire from the court room during a portion of a part of Mixon's testimony in this habeas corpus proceedings, to which she replied in the affirmative.

State moved that transcript of Mixon's testimony be filed in evidence. Objection by defense on grounds that transcript is not complete.

There being no objection on the ground that it is not the best evidence, objection overruled, with permission of defense to object to any testimony not admissible in this case.

Defense asked witness if testimony, after being transcribed, had ever been submitted to approval or signed by Tom Mixon, to which she replied that it had not, to her knowledge.

Attorney Stripling asked for notes or transcript of testimony of Tom Mixon at the preliminary hearing before County Judge Mason, to which State Attorney Rivers replied that he was not present at the preliminary, being represented by Attorney Evans Halle. Attorney Halle informed the court that no notes were taken of the testimony in question at this hearing.

Attorneys for defense retired with transcript, and made exceptions, returned document, part of exceptions being sustained by the court, and filed in evidence.

W. S. Broome

was present at hearing of habeas corpus proceedings in which Bexley and Osteen were petitioners and heard evidence of Tom Mixon. Said that Mixon testified during the absence of the court stenographer, who had retired, that he had gone to the point where he was standing when he saw the men, to meet a woman. Witness thought that was all Mixon said during the absence of the court stenographer.

"Was that testimony reduced to writing?" asked the prosecution.

"I am quite sure it was not," was the reply.

The State Rests.

At 3:50 o'clock Attorney Rivers announced that State rested.

Griner recalled by defense. Knew Tom Mixon and saw him about four minutes before the report of the shooting on July 29. Mixon was in his market. Mixon pulled off his shoes and said he was going to bed. Mixon appeared to be drinking. Knew Mixon well. Was not a man of poor eyesight.

When asked why he was so positive that only about four minutes between the time he left Mixon and the time he heard report, witness replied that he looked at his watch, and knew.

"Did Mixon afterwards show you where he was standing when he saw the shot?" asked the defense.

"He did," replied the witness, who, by request, designated the spot by the map.

"Where did Mixon say he afterwards went?"

To which the witness replied that Mixon said he returned to his market.

Witness said that Mixon's reputation was bad, and that he would not believe him on his oath.

W. F. Brown

and Night Officer Griner left Mixon's market together. Saw Mixon and Mixon appeared drunk at market. Went to the cotton warehouse with him. When they got to the warehouse they heard shot and went in direction from whence shot came, and met E. B. Godwin, and the three found the body of Moreland lying on the ground. He then went after Marshal Bryant, being requested to go after him by Mr. Griner. Afterwards made test of walk from Mixon's market via the warehouse and to the spot where Moreland's body was found, and it required six minutes.

Louis Bartlett

Resides in High Springs. Was in High Springs on July 29, 1908, and was running a barber shop. Knew Mixon. Mixon's place was only a few feet from his business. Heard shot between 10 and 11 o'clock. Went to front of his place of business and saw Mixon in front of his market.

Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Did not speak to him, but recognized him.

Cross-examination by State—Witness stated in answer to his physical condition that night that he was ill. He retired at a little after 8 o'clock, but had not gone to sleep, and he judged that the shot was fired between 10 and 11 o'clock. Did not know whether the shot was the one which killed Moreland or not.

Witness heard no outcry after report of shot.

Pate Sims.

This youthful witness was called and gave the following testimony: Resides in High Springs, and was there the night Moreland was killed. Mixon told him afterwards, and showed him, where he was standing when the shot was fired, which was in front of Mr. Grimes' house. Told witness that when the shot was fired he ran back to his market.

Note signed by T. E. Mixon and addressed to M. A. Bexley, father of Wm. E. Bexley, which was written by witness at request of Mixon and signed by Mixon, was presented to the witness, who recognized same. Witness delivered the note to Judge Bexley.

Substance of the Note.

The note was, in substance, that if Judge Bexley would give Mixon \$100 to pay his fare out of the State he would not appear against his son or Truby Osteen in the charge of murder. If he (Bexley) would not agree to this, a return of the note was requested, as Mixon did not desire the note to go into court.

Sims proved a most interesting and specific, but cautious, witness. He related that upon one certain occasion, shortly after the preliminary hearing in this case, Mixon approached him and related a concocted scheme upon which he proposed to swear that he had seen the assault upon Moreland, and identified Bexley and Osteen in combat and that the deed Osteen committed by an apparent accidental discharge of a pistol as the weapon was wrenched from his left hand by Moreland.

Witness stated that Mixon wanted him to testify that he was sitting against Mr. Futch's fence in the vicinity and witnessed the homicide and recognized the parties as Moreland, Bexley and Osteen.

— — Bell

resided in High Springs on the night Moreland was killed. Witness stated that he was in the market of Tom Mixon the next morning, and that the question of the murder came up and Mixon remarked that he was lying on a cot in his market when shot was fired. Mixon got up, but saw nothing and went back to bed.

Court took a recess until 7:30 p. m.

Evening Session.

G. S. Clark resides near High Springs and about 4 o'clock on the afternoon of July 29, 1908, he went into Tom E. Mixon's market to deliver a load of beef. Saw crowd congregated on streets and asked what was the matter, and Mixon replied that a drummer had been killed the night before; he did not know the drummer's name. Bexley and Osteen

had been arrested, Mixon said, having been tracked to their respective homes, but further than that he (Mixon) knew nothing about it.

Judge Mason on Stand.

Hon. H. G. Mason, county judge, was placed on stand, and testified as to the preliminary hearing in the case of the State vs. Bexley and Osteen. Witness said that Tom Mixon had given testimony in the case, which testimony was in substance similar to that already transcribed from the notes.

Janie Berry.

Janie Berry, a mulatto woman, was placed on the stand. Witness was asked if she knew a man who conducted a meat market in High Springs by the name of Tom Mixon, to which she replied in the affirmative. Was asked if she had an appointment to meet Mixon the night of July 29, and she answered "No." Witness excused.

Judge M. A. Bexley.

father of Wm. A. Bexley, was the next witness. Judge Bexley was shown two letters and a telegram, together with the envelopes containing same, and identified each as having been received by him, the first two being letters received through the postoffice, the third a telegram delivered by the Western Union Telegraph Company on October 28, 1908. These instruments were filed in evidence.

In reply to a question by the prosecution, witness stated that he had never written Mixon a line in his life, and never had but one business transaction with him, that of purchasing a number of cigars from him at one time, for which he paid him.

George T. Taylor.

Rev. George T. Taylor was sworn. He knew Mixon well, and was sufficiently acquainted with his handwriting to recognize same. The two letters addressed to Judge Bexley were exhibited to witness, who readily identified same as the handwriting of Mixon.

Witness was asked if he knew anything of the truth and veracity of Mixon, when he replied that he did not.

What the Letter Said.

The first letter, which was dated Tampa, Fla., some time prior to October 28, 1908, was in substance a request from T. E. Mixon to M. A. Bexley to send him (Mixon) \$35 at once, as he wanted to sail for New Orleans immediately. This letter was signed by Mixon.

The second letter in substance was another request from T. E. Mixon to M. A. Bexley, with a threat to send the money, as he must have money to get along. He wanted to sail for New Orleans immediately and stated that he (Mixon) was "broke," and if he did not hear by a certain date would "keep the wires hot." Letter signed, "Your friend if you will let me be, T. E. Mixon." The letter instructed Judge Bexley to send check in favor of "E. Crawford, 708 Jefferson street, Tampa, Fla."

The telegram, which was dated Tampa, Fla., October 28, 1908, demanded compliance with the two former letters, and was signed by E. Crawford, to whom the last letter instructed the check should be made.

Mixon's Character Attacked.

C. B. Martin, C. F. Holland, J. P. Hopson, Jack Alwood, mayor of High Springs, and Sam Newman were placed on the stand, and each testified that the reputation of truth and veracity of Mixon was not good.

Hinnie Cole and Roy Greer, both residents of High Springs, testified they heard the report of the pistol at 10:30 p. m., but their testimony was not of importance other than the establishing the report of the gun.

Ben Wiles

resides in Palatka at present, but was living in High Springs on night of July 29, and was rooming at Mr. Grimes'. He arrived at his room at 10:25 p. m., according to his watch. As witness passed the house of Mr. Futch he saw the outline of one man and heard voices. Knew Bexley and Osteen well, and did not recognize either of their voices. The night was dark. Heard shot about five

HEAVY VOTING FROM ALL THREE SECTIONS

INTEREST INCREASES DAILY AND WORKERS ARE BUSY.

Many Changes in the Standing of the Contestants Who Are After Handsome Prizes.

Surprises are being sprung in the prize contest every day and the heavy vote being polled shows that the leaders are hard at work, and even those who had only a few votes last week now run up in the thousands and the interest is getting "keener" each day.

According to rule No. 2 a number of candidates have been withdrawn during the past few days, and it is this rule that made it necessary for one of the leaders of the contest from the Gainesville district to have to withdraw from the race Friday.

Hereafter no nominations will be placed in the paper until the candidate receives 200 votes or over. This is done to stop the practice of many being nominated each day and causing extra labor that is wholly unnecessary, as the parties invariably withdraw.

Following is the standing of the contestants from the count which was taken up yesterday at 8 a. m., which plan will prevail hereafter in order to give the committee more time to count the votes:

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

LANDERS HAD NARROW ESCAPE ON FRIDAY

PIECE OF DERRICK CAUGHT HIM WHILE UNLOADING SAME.

With Assistance of Heavy Skid He Managed to Save Being Crushed to Death.

G. K. Landers, who is employed by the firm of Crawford & Davis, had a narrow escape from death on Friday while unloading the heavy derrick that will be used in constructing the Government building.

Two wagons coupled together were required to convey the two carloads of material that arrived for this purpose and it was while they were unloading one of these massive timbers that it slipped and came near crushing Mr. Landers between them. Fortunately he had a large timber that was used as a "pry" and it was this that saved him from death, or being badly crushed, and he did not escape without injury as it was. His foot was caught in the timbers and badly mashed, tearing away two of the toe nails, which will cause him much pain for several days.

He is very thankful that the accident was not more serious and attributes his escape to the scantling he held. There were some seven or eight negroes holding the timber, but when they saw it was sliding away from them, they all made a get-away and left the "boss" to hold it as best he could.

RESOLUTIONS OF RESPECT.

Fernandina Lodge No. 795, Benevolent and Protective Order of Elks, at a meeting on May 3rd adopted the following resolutions on the death of J. O. LaFontisee, who was a member of this lodge:

"Whereas, It pleased Almighty God in his infinite wisdom to remove from our midst our worthy and esteemed brother, John O. LaFontisee, and,

"Whereas, In the death of our beloved brother we feel the loss of a most faithful and upright member, one who, by his bright and sunny disposition, has won the love and esteem of all who knew him; Therefore, be it

"Resolved, That while bowing to the will of the Almighty, we deeply regret the death of our brother, and tender to the bereaved relatives our sincere and heartfelt sympathy in their sorrow and affliction; and be it further

"Resolved, That a copy of these resolutions be sent to the relatives, a copy be placed on our minutes, and a copy be sent to each of our local papers, a copy to The Times-Union and a copy to The Gainesville Sun, and that our charter be draped for thirty days in his memory.

A JUST COMPLAINT.

The Sun has from time to time called attention to the need of better depot accommodations of the railroads entering Gainesville and the Railroad Commission has made an effort to have better facilities provided, but the excursion of the Sunday school picnickers to Interlachen Friday demonstrated the immediate need for a change or alteration of the Atlantic Coast Line passenger station.

Between 7:30 and 8:30 o'clock the ticket agent sold 644 tickets for the excursion, and the manner in which the people had to push and shove one another to gain admittance to the ticket window was anything but a credit to the railroad system or the city. This condition was occasioned by the depot having only one entrance, and taking into consideration that a majority of those purchasing tickets for this occasion were women and children, it was most unpleasant, and served as a damper to the day's outing at the very start.

This condition can be remedied at small expense by making side exits to both white and colored waiting rooms, and it is to be hoped, that the railroad authorities will not delay this necessity any longer. The present accommodations are an imposition on the public, and it is suggested that if relief is not given before the railroad attempts to accommodate our people on similar occasions, a ticket wagon be used on the outside in order that the public may be more agreeably served.

Should the Railroad Commission, A. C. L. officials and the Gainesville City Council never agree as to the proper specifications for a new passenger station, the railroad company can certainly afford to make the alterations suggested above.

The Sun has received clippings from Los Angeles, Cal., papers announcing the arrival of the party sent from Florida to study methods and conditions of the orange industry of the Pacific Coast State. The members of the party will take special pains to examine growing conditions, the different ways of packing and grading oranges and every other detail of the business. They will make reports on the California crop when they return to Florida, and each member has been detailed to investigate some certain branch of the industry. Their observations will no doubt be of much benefit to the Florida fruit growers.

Hon. W. M. Holloway, State Superintendent of Public Instruction, has made the regular semi-annual apportionment of the one-mill school tax, the amount for the apportionment being \$68,236.47; rate per pupil, 71 cents. Of this amount Alachua county, with an average attendance of 4,562, receives \$3,239.92.

Senator Beard's disfranchisement bill, which passed the Senate last week by a vote of 29 to 19, is set for hearing in the House this morning at 10 o'clock. If the press voices the sentiments of the people of Florida the House will conserve the State's interests by administering to this bill a crushing defeat.

Editor Stafford has increased the size of his Crystal River News to eight pages.

STATE ENCAMPMENT ORDERED.

Official general orders have been issued from the general headquarters of the Florida State Troops, located at Tallahassee, under date of April 28, ordering the brigade of infantry, comprising the military force of the State, into camp at Black Point, on the St. Johns river, for its annual tour of field duty, commencing June 8 and covering a period of eight days, says The Times-Union.

The general order just issued makes it prohibitory for commanding officers to take into camp any soldier who has not received armory drill and instruction in the "school of the soldier," and guard duty, for at least four weeks prior to the date of the encampment. This provision was inserted for the reason at previous field exercises of the troops, where they have participated with the regular army, many soldiers were found in the ranks of the various organizations who had received absolutely no rudimentary instructions before leaving home stations. This fact was made the subject of special reports of army officers detailed with the militia as instructors and incorporated in a circular from the War Department, upon recommendation of the division of militia of the Federal Government.

Upon the receipt of the general orders, the commanding general of the brigade will immediately issue the necessary orders to carry them into effect, as well as prescribing the program of field exercises covering the period of the encampment.

The following are the general orders issued by the Adjutant-General by command of the commander-in-chief:

"State of Florida, General Headquarters, Florida State Troops, Tallahassee, April 28.

"General Orders No. 7.

"1. An encampment of the First Brigade, Florida State Troops, will be held at the State camp grounds at Black Point, on the St. Johns river, commencing June 8, and covering a period of eight days. The commanding general of the First brigade will issue such orders and give such directions as may be necessary to carry this order into effect. He will prescribe such course of instruction and program for field exercises of the troops as in his judgment will best promote their efficiency and upon the assembling of his brigade will adopt such measures as may be necessary to secure the care and safe-keeping of all public military property and to insure the maintenance of good order and discipline at all times in camp and its surroundings by all the troops of his command.

"a. Unless specially exempted by the commanding officer, all field and staff officers will be required to provide themselves with the mounts necessary for the proper performance of their duties and allowance of \$2 per diem for horse hire will be made all officers who are required to be and are actually mounted when such fact is certified to on the pay rolls.

"b. Attention is invited to paragraph 87, regulations for the Florida State Troops, which is as follows:

"No enlistment shall be made within thirty days prior to an encampment of instruction without special permission from the Adjutant-General of the State, except enlistments of ex-members of the Florida State Troops and musicians for the regimental bands. On no occasion of duty in camp, in the field, nor on active service in aid of the civil authorities, will any other than bona fide and regularly enlisted men accompany any command or appear with the same. Commanding officers will be held accountable for the strict enforcement of this rule.

"c. No soldier will be taken into camp who has not received armory drill and instruction in the school of the soldier and guard duty for at least four weeks prior to the encampment.

"d. Covering the period of the field exercises provided for under this order, from June 7 to 15, inclusive, 1909, leaves of absence will only be granted upon the order of the commander-in-chief and furloughs to enlisted men will be granted by regimental commanders.

"e. In preparing his program of field exercises for this encampment, the commanding-general of the First brigade will make provision for a field inspection of the troops by such officer or officers of the United States army as may be designated by the Secretary of War, and also for an inspection; but will require them, before leaving camp, to thoroughly po-

lice the grounds which they had occupied.

"f. As soon as possible after the conclusion of the tour of duty herein provided for, the commanding general will make written report of the service performed by his command, embracing therein such suggestions and recommendations as he may deem for the good of the service.

"By command of the Governor.

"J. CLIFFORD R. FOSTER,
"Adjutant-General."

The British government has introduced a bill into parliament to disestablish the Church of England in Wales. The bill will undoubtedly pass the Commons but its fate in the Lords is uncertain. The action of the government is one of simple justice to Wales and in response to the urgent entreaty of the great majority of its people. Unlike England, where the number of the Church of England and the Nonconformists is about equal, in Wales the Nonconformists are an overpowering majority. Therefore on that ground alone the demand of the Welsh is fair and reasonable. But also the principle of union of Church and State is wrong as well nigh everybody in this country and in the English colonies admit, and being wrong it will ultimately be dissolved. That is being rapidly recognized even in England, where disestablishment will naturally follow that in Ireland, where the results have been good all around, and in Wales.

St. Augustine accorded the Daughters of the Confederacy every courtesy this week. But this was expected since the people of the Ancient City have a universal reputation for unstinted hospitality.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. BIG CELEBRATION FOR LAYING CORNER-STONE

MANY PROMINENT CITIZENS TO
BE PRESENT FOR OCCASION.

Committee Abandons July Celebration
for This Attraction and Will
Make Gala Day.

The committee in charge of the celebration, and who had called on the coming event for July 4th, have decided to have a gala day here at the laying of the corner-stone of the Government building.

For this grand occasion they believe that a magnificent sum can be realized and they will work to have one of the greatest events ever given in the city upon this occasion.

Prominent and influential Floridians will be asked to participate in the exercises, among them being all of the present representatives from Florida and Col. Robt. W. Davis of Tampa, who was instrumental in getting the first bill for an appropriation for the building through Congress.

For this occasion the committee will have a number of amusements, including a barbecue, and will endeavor to have special trains run to this city at a very low rate, bringing visitors from all sections of the State.

They have abandoned the attempt to hold a celebration for July 4th, as they are of the opinion that the two could not well be entertained and that funds for their success would not be forthcoming, but on the other hand believe that in a matter like this, which affects every citizen of the city, a very neat sum can be realized for its proper observance.

The exact time that this event will occur has not been decided upon, for while some are of the opinion that it will occur in June, others believe that it will be the latter part of July or August before the building will be sufficiently advanced for the laying of the corner-stone.

THE MOTHER'S PROBLEM

Of Raising Strong, Healthy Girls.
A serious problem which presents itself to every mother with girls to raise, in these days. The exigencies of school life, the hurry and routine of every-day duties, the artificial environment of modern civilization, make it more difficult to raise strong, healthy girls than ever in the history of the world.

Boys raise themselves. Give them room, give them liberty, and they will grow up healthy at least, without much worrying. But the girls present a serious problem.

How many mothers there are who are worrying about their daughters. Nervous, puny girls, with poor, capricious appetites, bloodless, listless, a constant anxiety to the mother. How shall she solve her problem? To whom shall she turn for help? Each case is more or less a study by itself, and cannot be solved by any general rule.

This is the way one mother solved the problem. Mrs. Schopfer, 3020 Prescott Ave., St. Louis, Mo., in a letter to Dr. Hartman, says: "My daughter Alice, four years of age, was a puny, sickly, ailing child since she was born. I was always doctoring her. When we commenced to use Peruna she grew strong and well."

Another mother, Mrs. Martha Moss, R. F. D. 5, Chippewa Falls, Wisconsin, says: "Our little eight-year-old girl had a bad cough, and was in a general run-down condition." She had several doctors, who could give the child no relief, and the mother no encouragement.

Finally, she got a bottle of Peruna and commenced giving it to the child, and it proved to be just what she needed. When she commenced taking Peruna the child had to be carried.

Now the mother says she is playing around all the time.

Her closing words were: "You have done a great deal for her. She is the only girl we have, and it meant lots to us to have her cured."

These are samples of many letters which Dr. Hartman is receiving, coming straight from the hearts of loving mothers. While the different schools of medicine are bickering and differing as to theories and remedies, Peruna goes right steadily on giving permanent relief. After all, it is cures that the people want. Theories are of little account.

Convention of Colored People.

Editor Sun: Please allow me space to state a few things concerning the doings of the colored people.

The Woman's Home and Foreign Missionary societies held a district convention at Damascus Baptist church last week. This convention is auxiliary to the Suwannee River Baptist Association. An excellent program had been arranged for the occasion.

The following officers were elected: Mrs. Jane Perry, president; Mrs. H. Parker, vice-president; Mrs. Ruth Jones, treasurer; Mrs. M. A. Watkins, secretary; Mrs. S. H. Hendley, corresponding secretary.

The scribe had the high honor of giving the "charge" in the installation. Rev. E. L. Walton preached the introductory sermon and Rev. C. S. Simkins of Live Oak preached the missionary sermon. Many valuable papers on various topics were read.

The next session will be held in Jasper, Fla. S. H. HENDLEY.

ANCIENT BELLS.

They Were Often Quadrangular and Made of Thin Iron Plates.

There are several old bells in Scotland, Ireland and Wales. The oldest are ten quadrangular, being made of thin iron plates which have been hammered and riveted together. At the monastery of St. Gall in Switzerland the four sided bell of the Irish missionary St. Gall, who lived in the seventh century, is still preserved, but more ancient still is the bell of St. Patrick in Belfast, which is ornamented with gold and gems and silver filigree work. The curfew bell is that about which most has been written and said. It has been thought that it was only used in England, but it was quite common in the continent in the middle ages.

The ringing of bells by rope is still very popular in England, especially in the country, where almost every hamlet, however small, has its church with its peal of bells, which are often remarkably well rung. The first real peal of bells in England was sent by Pope Calixtus III. to King's college, Cambridge, and was for 300 years the largest peal in England. About the beginning of the year 1500 sets of eight bells were hung in a few of the large churches.

In the middle of the seventeenth century a man named White wrote a famous work on bells in which he introduced the system of numbering them 1, 2, 3, 4, etc., on slips of paper in different orders, according to the changes intended to be rung. It is calculated that to ring all the changes upon twenty-four bells at two strokes a second would take 117 billion years.

One of the most famous bells in the world is the first great bell of Moscow, which now stands in the middle of a square in that city and is used as a chapel. This bell was cast in 1733, but was in the earth for over a hundred years, being raised in 1836 by the Emperor Nicholas. It is nearly twenty feet high, has a circumference of sixty feet, is two feet thick and weighs almost 200 tons. The second Moscow bell, which is the largest bell in the world that is actually in use, weighs 128 tons. There are several bells extant which weigh ten tons and over, of which Big Ben, the largest bell in England, weighing between thirteen and fourteen tons, is one. Big Ben is unfortunately cracked.—London Globe.

LITTLE BABY HORRIBLY BURNED

By Boiling Grease—Skin All Came off One Side of Face and Head—Tried an Ointment which Made it All Fester—Wee Sufferer Seemed Disfigured for Life.

CURED WITHOUT A MARK BY CUTICURA

"About a year and eight months ago my baby, aged ten months, was sitting on the floor beside the fender and we were preparing the breakfast when the frying-pan full of boiling grease was upset and it went all over one side of the baby's face and head. One of the family ran and wiped the scald with a towel and you may think what a mess she made, pulling the entire skin off. We took her to a chemist who told us to get a doctor, which we did. He tended her a week and gave me some stuff like lard to put on. But it all festered and I thought the baby was disfigured for life. A woman close beside me told me to try Cuticura Ointment. I used about three boxes and it was wonderful how it healed. In about five weeks it was better and there wasn't a mark to tell where the scald had been. People used to ask me if that was the baby that was scalded and they would hardly believe me when I told them she was and what cured her face. Her skin is just like velvet and I have never been without Cuticura since. Cuticura cured three other children of ringworm besides, so I have good cause to thank it for what it has done. Mrs. Hare, 1, Henry St., South Shields, Durham, England, March 22, 1908."

CUTICURA

World's Favourite Emollient.

HISTORY ON A TUSK.

Picture Made by a Cave Man Millions of Years Ago.

Long ago, so long that even a scientist would hardly dare venture a guess as to the date, a man clad with only a wild beast's skin about his loins was sitting at the mouth of a cave in one of the rocky highlands in what is now southern France. He was scratching with a sharp flint on the fragments of an ivory tusk, perhaps picturing for some youthful admirer adventures through which he had passed or animals he had slain. That ivory chip was stored away as a treasure, to be lost and forgotten after the cave man's death. One day a man named Lartet, digging in the cavern floor, found it. On it was scratched a very fair representation of the hairy elephant, probably at once the oldest picture and the oldest human record in existence.

We know the cave man was a faithful workman, for the netting bee-fields of Siberia have yielded a perfect specimen of this extinct mammal, and the paleolithic picture is a true copy. Not only has this ancient sculptor given us a sample of the earliest art, but he has left us, more valuable than all, a historical record of his time, for this rude picture is simply a page from the cave man's history which, translated into twentieth century English, says, "Men, thinking men, were contemporaneous with the hairy elephant."

No record that any of humankind have ever left is half so ancient as this. The oldest Egyptian papyrus is a thing of yesterday compared to this paleolithic sculpture. While the cave man was living in Europe the valley of the Nile was yet only a wild waste. Egypt was not yet Egypt, and civilization as we know it had scarcely made a beginning.—Lippincott's.

Shy on the Son.

"But I do not know the candidate," said an old Yorkshire farmer who was appealed to for his vote.

"But you know his father?"
"Yes, I know him, and he's a grand man."

"Then you will surely vote for his son, won't you?"
But the old farmer was still doubtful.

"I'm no so sure about that," he replied. "It's no every coo that has a cuff like horse!"—Liverpool Mercury.

Queer, but Expressive.

A Danish girl who has recently come to this country to take a course in trained nursing was complaining to a friend the other morning of having overslept herself. "And no reason why such a thing should befall me, for I had—what do you call it in English? I know, a sleep watch—all set."—Washington Star.

THE MYSTERY OF MARS.

Old but Unsolved Problem, Is There Animal Life on the Planet?

With a planet so old as Mars and so far along in the process of life extinction the conditions of life would be severe, and only a highly intellectual and scientifically developed race could endure and master them. The engineering skill and constructive capacity to control the annual floods from the poles, store the waters and build the thousands of miles of huge canals would require scientific knowledge beyond that possessed by us at the present time and financial resources in excess of those we have yet accumulated. The nation that finds the diggings of a little ditch at Panama so great a task would be helpless in the face of such a problem as these thousands of miles of Martian canals. If, indeed, canals they be. Yet, in view of the greater life age of Mars, such higher intelligence would be natural in the regular process of development, assuming that it has ever been the abode of intellectual life.

Scientists are in the main in a receptive state on this subject. They are not ready to admit that the existence of life on that planet has been proved. They do not deny it, but call for greater proof than a plausible theory. Among others than scientists there is in the main a disposition not to accept the Martian human life theory or the theory of life on any of the thousands of spheres that wheel and glisten in illimitable space. They seem to think that such a theory conflicts with religion and dwarfs man and his importance in the scheme of creation.

This seems to be a very narrow view to take, since it appears to set bounds upon the infinite power and creative desires of the Almighty, whose great scheme of mortal and immortal life is not necessarily confined to a single planet or the few billions of human beings who are born and die upon it. As to dwarfing the importance of man, a few billions more added to the billions on earth would make little difference. Man is at best a small and insignificant creature, but if all embracing wisdom, power and love takes so illicit note of him it would be limiting those infinite qualities to say that one planet must be his abiding place. Therefore the question of human intelligence on Mars or any other planet of the solar system or the other great systems in remote space should be purely and simply a scientific one, to be accepted as true only when proved, but not to be rejected through sentiment or for any other reason whatever except lack of proof.—St. Louis Star.

An Oriental Blessing.

A well known representative from China, who was a guest at a wedding in a capital city, was approached after the ceremony by the best man and jokingly asked to go over to the young couple and pronounce a parental blessing. The obliging dignitary complied with pleasure. Placing his hands on the blushing bride and shaking bridegroom, he said: "May every new year bless you with a man-child offspring until they shall number twenty-five in all. May these twenty-five man children offspring present you with twenty-five times twenty-five grandchildren, and may these grandchildren—"

But the little bride grew hysterical about this time, and the oriental blessing was ended amid the laughter of the guests.—Ladies' Home Journal.

A Cowboy Spider.

"Taking aside," said the nature student, "there is in New Zealand a cowboy spider. This creature throws a coil of web like a lasso over its prey's head, then adds more and more coils and when the prey is bound hand and foot devours it."

"There is a Borneo spider that in the spring days plays a fiddle. It is a common thing for a lovesick spider to dance before his girl, but this Borneo boy my drawing his arm across his tumb produces a sweet, clear note. Whenever he sees a good looking young lady spider he stops and gives her a tune, hoping to win her by music."—Philadelphia Bulletin.

Miners' Freedom From Cancer.

"Miners never have cancer. In thirty-five years' practice in a mining town I haven't had a single cancerous patient."

"And to what, doctor, do you impute this immunity?"

"Miners are singularly clean. They bathe every day. They rarely smoke. They are a temperate and regular set. Above all—"

The physician smiled grimly.
"Miners," he said, "die young. Cancer is an old age disease. And there really is the reason of the miner's cancerous immunity."—Cincinnati Enquirer.

Not the Same.

"Excuse me," he said as he entered the public library at Piquette, "but do you have any social registers here?"
"No, we haven't," said the librarian, with considerable hauteur. "This here buildin' is hot up by steam, and we haven't got nothin' but radiators, and we don't allow no settin' around with your feet on to them neither. The nearest thing we got to a social registry in this town is the postoffice stove."—Lippincott's.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

Efficient Service. Reasonable Rates

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and comfortable accommodations, has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets a Prize!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

The pianos will be purchased from the A. R. Harper Piano Co., Jacksonville.

In the event of a tie for any prize offered, a prize similar in all respects thereto will be given each of those tying.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

How and Where to Get Votes

The following merchants will give one vote for every cent paid into their establishments for goods which they handle:

"I have not eaten a meal as good in five years!"—are afterheard expressions of satisfied guests after leaving the dining-room of the Brown House.

UNION PICNIC EXCURSION.

Proved a Great Success from Every Standpoint Except Service.

The Atlantic Coast Line special for the union Sunday school picnic was a grand success so far as the jolly crowd that left this city were concerned and Agent Goodwin would have easily disposed of more tickets had the accommodations been sufficient to handle them.

The train as first made up consisted of four coaches and an express car, but it was seen by the management that this would not hold half the people, so four more were added, making, in all, eight coaches and the baggage car, this being well filled with baskets and people who were determined to go and take in the festivities of the day.

Arrangements were requested for about 800 people and the company had no idea that the demand would be so great or they would have been accommodated. The nine cars which left here were well packed and Ticket Agent Goodwin succeeded in issuing 644 tickets, all that could be "squeezed in" the coaches, every available space being taken up, including platform.

The day was an ideal one and with all nature smiling upon the occasion it is regretted that accommodations were not made for more people who desired to visit Interlachen but preferred to stay at home rather than be uncomfortably crowded.

Full line of all vegetables in season for the trade today. Better give us the order, for we can please you all around. J. G. Harrold.

Mrs. J. F. Bunch has gone to Fort White. She expects to remain there for the next several days visiting her father and other relatives.

Help out that Sunday dinner and that Sunday night supper with some of the good things to be found at the Woman's Exchange this afternoon.

A. R. Harper, who has been here for the past two days arranging for his new store in the Baird block, left yesterday for Jacksonville. He will return to the city about the first of the week.

Five-room cottage to rent on block adjoining square, formerly occupied by W. L. LeGrande; city water, electric lights, sewerage, bath, and all modern conveniences. Apply to Mrs. H. H. McCreary or Sun office.

Josie Daughtrey, a former Gainesville boy who is now employed at Burnett's Lake, was a visitor to the city yesterday. He has been transferred from this point to Worthington and will assume his new duties Monday.

Dr. R. M. Tench of Sonola, Ga., returned to his home yesterday after having spent the past several days here visiting his brother, Major J. W. Tench. He has made a number of friends here who are pleased to greet him.

If you desire a clear complexion take Foley's Orino Laxative for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in the spring in order to feel well. J. W. McCollum & Co.

Capt. Jas. M. Graham and wife were among the passengers to Worthington Springs yesterday and will remain there for the next two days. They are having a handsome and commodious cottage erected in that place and will spend part of the heated term there and enjoy the waters from the famous springs.

If you want to feel well, look well and be well, take Foley's Kidney Remedy. It tones up the kidneys and bladder, purifies the blood and restores health and strength. Pleasant to take and contains no harmful drugs. Why not commence today? J. W. McCollum & Co.

Owing to the great demand for high-class moving pictures, the management of the Electric Theatre has decided to give a double-bill show on Saturday night only, commencing at 8 p. m. and 9 p. m. Doors open at 7:30 p. m. Prices for each show, 10 cents. If you cannot come early come for the second entertainment. High-class pictures. Electric fans, plenty of room.
